466 Total Packwood Lake Camper-Nights 2002

450 reported

- Note 1 Each tent was counted as 2 camper-nights
- Note 2 Example: if 6 tents were observed, 12 was reported in the table above
- Note 3 Field observations are noted with an underline
- Note 4 Boxes indicate weekends and holidays

### Packwood Lake Camper-Nights 2002

Peak Weekend Average

Day (Rec-days / no. of days)

|             |                                      |
|-------------|--------------------------------------|
| 6.7         | Memorial Day (3 days)                |
| 17.5        | 4th of July (4 days)                 |
| 16.7        | Labor Day (3 days)                   |
| <u>13.6</u> | Daily Average of the 3 peak weekends |

Night

|             |                                      |
|-------------|--------------------------------------|
| 6.0         | Memorial Day                         |
| 24.0        | 4th of July (reported)               |
| 16.0        | Labor Day                            |
| <u>15.3</u> | Daily Average of the 3 peak weekends |

Note 1: Column B values are the average of the recreational-days or camper-nights for the weekend

Note 2: The source of data can be found on the worksheets: Day Data 02 and Night Data 02

Note 3: Friday night and the last night of a weekend (before a workday) was not counted

Note 4: The average of the 3 peak weekends was not used

Peak Weekend Average for FERC form 80 (4th of July)

|      |                                   |
|------|-----------------------------------|
| 41.5 | 4th of July weekend (reported 40) |
|------|-----------------------------------|

Note: sum of daily averages for day use (rec-days) and overnights (rec-days)
