Dear Matt Turner:

Thank you for your application for renewal in the Environmental Laboratory Accreditation Program. Attached is a new Certificate of Accreditation covering the one-year period beginning April 12, 2021 and a current Scope of Accreditation.

A number of parameters have been denied for EPA Method 200.8 and EPA Method 353.2, in drinking water matrix, since PT results were not submitted.

Calcium by EPA Method 200.8 in Non-Potable Water, was denied since the only PT result submitted was unacceptable.

Parameters for Biochemical Oxygen Demand and Dissolved Oxygen have been upgraded from provisional status to good standing, due to the submission of an acceptable SOP and acceptable PT results.

Total Organic Carbon by SM 5310B-2011, in Drinking Water has been upgraded from provisional status to good standing, with the resolution of audit findings and acceptable PT results.

Total Kjeldahl Nitrogen by EPA Method 351.2 has been upgraded from provisional status to good standing. Please see the accompanying technical report.

Congratulations on the resolution of all findings from the 2019 onsite audit. That audit is now closed.

Renewal of accreditation is based in part on review of your lab's performance over the past year as evidenced by participation in proficiency testing (PT) studies. In general, full accreditation is awarded for those parameters for which the two most recent PT results, if applicable, were rated satisfactory. Provisional accreditation is awarded if the latest of the two most recent PT results was rated "Not Acceptable" or only one PT result was submitted during the past twelve months. Accreditation is withheld for those parameters for which the two most recent PT results were rated "Not Acceptable" or no PT results were submitted during the past twelve months.

As a reminder, continued participation in the Ecology Lab Accreditation Program requires the lab to:

- Submit a renewal application and fees annually
- Report significant changes in facility, personnel, analytical methods, equipment, the lab's quality assurance (QA) manual or QA procedures as they occur

- **Participate in proficiency testing studies semi-annually, with the following exception: For each parameter where all PT results were satisfactory, you are required to submit only one PT result over this next year, and in subsequent years, as long as the results are satisfactory.**

YOUR RIGHT TO APPEAL

You have a right to appeal Ecology’s decision to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this decision letter. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. “Date of receipt” is defined in RCW 43.21B.001(2).

To appeal you must do the following within 30 days of the date of receipt of this decision:

- File your appeal and a copy of this decision with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this decision on Ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
