Packwood Lake Hydroelectric Project

Gravel/Large Wood Inventory

Lower Lake Creek

April 2007

Photos taken by Kathy Dubé
Inventory after November 2006 peak flow.

Inventory from mouth of Lake Creek (RM0, Sta 0) to RM 2 Falls (Sta 10900).

Note: stationing is approximately 200 feet different from 2005 inventory because mouth of river moved upstream.
STA 2000
Gravel site 1-2
STA 4900 – log dam breached; gravel moved downstream
