Reference: Letter dated December 18, 2018; Energy Northwest to FERC; License Article 406 Historic Properties Management Plan and Programmatic Agreement Implementation

On December 19, 2018, Energy Northwest (EN) filed an updated the Historic Properties Management Plan (HPMP) that included details from the new license and added administrative updates to the table of contents and acronyms utilized in the text. No substantive revisions were made to the plan.

EN received acknowledgement of receipt from the Department of Archaeology and Historic Preservation (DAHP/SHPO). The DAHP/SHPO did not provide comments. We have enclosed a copy of those communications for the FERC record.

EN hereby provides this supplemental information to the filing of the HPMP. If you have any questions or require additional information regarding this Plan, please contact me at 509.378.9755 or [kwilliams@energy-northwest.com](mailto:kwilliams@energy-northwest.com).

Respectfully,

Ken Williams

Attention: Parties of the Programmatic Agreement of the Packwood Lake Hydroelectric Project

The following letter and attachment will be filed with the Federal Energy Regulatory Commission (FERC) by Energy Northwest as it relates to the Packwood Lake Hydroelectric Project.

**Subject:      PACKWOOD LAKE HYDROELECTRIC PROJECT  
                  FERC DOCKET NO. P-2244  
                  LICENSE ARTICLE 406  
                  HISTORIC PROPERTIES MANAGEMENT PLAN AND  
                  PROGRAMMATIC AGREEMENT IMPLEMENTATION**

Reference:    1) Letter dated October 11, 2018; FERC to Energy Northwest; Order Issuing New License  
                  2) Programmatic Agreement executed October 26, 2009  
                  3) Historic Properties Management Plan filed August 30, 2007

Energy Northwest (EN) in accordance with Article 406 of the Order Issuing New Operating License issued by the Federal Energy Regulatory Commission (FERC) October 11, 2018, herein files the Historic Properties Management Plan (HPMP) for the Packwood Lake Hydroelectric Project (Project). In accordance with the Programmatic Agreement (PA), EN is required to implement the associated HPMP for the term of the new license.

The final HPMP was collaboratively developed during the relicensing process with requisite agencies, finalized and filed with FERC on August 30, 2007. Energy Northwest has updated the HPMP to include details from the new license, added a table of contents, and standardized the acronyms. No substantive revisions were made to the document.
