The General Business Unit costs are allocated to each Business Unit as explained on page 10. Also, the allocation process is depicted in a diagram on Table 7.

The Performance Fee account has been established for the purpose of depositing monies related to fees earned by Energy Northwest. Monies within this account are used to fund start-up expenses related to Business Development Fund projects, and for other purposes as directed by the Chief Executive Officer (Table 8).

The Fiscal Year 2017 Budget has been adjusted to reclassify certain costs for comparison purposes to the Fiscal Year 2018 Budget.

Overview of Indirect Cost Pools

Energy Northwest makes use of four indirect cost pools. Allocation of these pools is conducted in four sequential steps. A graphical depiction of allocation steps are provided on the following page (Table 7).

Step 1 - Employee Benefits (Resource Category 703)

All costs incurred by Energy Northwest for medical and dental benefits, employer portion of social security and Washington State Employees' Retirement System, 401(k) matching, and other costs associated with employee wellness. Employee benefit costs are allocated to business units and other intermediate cost pools based on regular labor costs. Overtime, temporary and special pay costs receive a reduced rate.

Step 2 – Personal Time (Resource Category 701)

All costs of labor while employees are on Personal Time (e.g., vacation, holiday, sick, etc.) and a pro rata allocation of employee benefits. These costs are allocated to business units and other intermediate cost pools based on regular labor costs.

Step 3 – Organizational Overhead (Resource Category 702)

Contains costs for education reimbursement, new employee relocation, employee labor supporting corporate sponsored initiatives and labor costs determined when goals are evaluated. Also, included is a pro rata allocation of employee benefits and personal time. These costs are allocated to business units and the Corporate Programs cost pool based on regular labor costs.

Step 4 – Corporate Programs (Resource Category 704)

Contains all costs associated with management of Energy Northwest's corporate activities. These costs include costs of finance, legal, administration, human resources, procurement, and information technology. Also, included is a pro rata allocation of employee benefits, personal time, and Organizational Overhead. These costs are allocated over Total Operating and Capital costs.
