

Energy Northwest COVID-19 Site Access Screening Checklist –Revision 9

PART I		
Yes	No	
		In the last 14 days, have you had a positive COVID-19 test OR waiting on test results for COVID-19 due to exhibiting symptoms? <i>*Discretionary testing or antibody testing is not applicable to this question.</i>
Within the last 72 hours have you displayed any of the following symptoms?		
Yes	No	Symptom
		Fever (100.4°F) or higher
		Deep Persistent Cough (respiratory aggravation / distress)
		Difficulty breathing (feeling “winded”; struggling to draw in full breath)
		New loss of taste or smell not attributed to other medical condition (allergies, cold)
If you answered YES to ANY questions above DO NOT REPORT TO WORK , call your supervisor to report this and we suggest you contact your personal medical health professional.		
PART II		
Yes	No	Question
		In the last 14 days, to the best of your knowledge, have you had CLOSE* contact with someone who tested positive for COVID-19 and you are NOT fully vaccinated or have not had COVID-19 yourself?
		In the last 14 days, to the best of your knowledge, have you had CLOSE* contact with someone who has been tested for COVID-19, the test results are not yet available, and the person had the symptoms of Part I at the time of the contact and you are NOT fully vaccinated or have not had COVID-19 yourself?
If you answered YES to ANY of these questions DO NOT REPORT TO WORK and call your supervisor and personal medical health professional.		
If you have been fully vaccinated or have had COVID-19 and you are asymptomatic, you may REPORT TO WORK . However, if you have been exposed to someone with COVID-19 within the last 14 days, it is recommended that you get tested yourself for COVID within 3-5 days after exposure.		

CLOSE contact: Someone who is **NOT fully vaccinated or has not had COVID-19 who was within 6 feet of a COVID infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.*

Screening for Emergency First Responders is NOT required.
